

PROJECT COSTS FOR 2009/10 (BY GROUP WITH PERCENTAGES)

PROJECT NO.	CONTRACTOR	PROJECT TITLE	£	%
06/20	Broom's Barn Research Centre	1 Genetic technologies, crop improvement, varieties Evaluating genes for controlling premature bolting & root rot diseases in sugar beet	160,438	9.68%
06/23	Broom's Barn Research Centre	Using multi-environment variety trial data to screen for drought tolerance	14,566	0.88%
07/14	Broom's Barn Research Centre	Physiology-based selection methods for improving sugar beet productivity under water-limited conditions	35,739	2.16%
08/01	NIAB, British Sugar plc, Broom's Barn Research Centre	Sugar beet variety trials 2008-2012	254,124	15.34%
08/01(a)	BSPB	Reserve sites for NL/RL sugar beet variety trials	16,035	0.97%
09/22	British Sugar plc	Varietal differences in crown size and greater recovery of crown material at harvest	30,843	1.86%
09/26	British Sugar plc	Early-sown bolting trials to characterise varietal bolting	18,355	1.11%
		Group 1 total for 2009/10	£530,100	32.00%
07/25	The Arable Group, British Sugar	2 Direct environmental improvement Strip Tillage - a new concept sugar beet production	42,287	2.55%
		Group 2 total for 2009/10	£42,287	2.55%
09/03	Broom's Barn Research Centre	3 Physiology & response to agroenvirons Inputs/outputs - effects of increased input costs on crop profitability	18,000	1.09%
		Group 3 total for 2009/10	£18,000	1.09%
07/12	Broom's Barn, British Sugar plc	4 Pest, diseases,weeds Monitoring and control of sugar beet pathogens	352,704	21.29%
08/16	British Sugar plc	Pest and Disease DSS	30,588	1.84%
09/01	Rothamsted Research	Optimising virus yellows control by monitoring population dynamics, virus content and insecticide resistance of aphids	48,475	2.93%
09/09	Broom's Barn, British Sugar plc	Exploitation of fungicides for foliar disease control	45,023	2.72%
		Group 4 total for 2009/10	£476,790	28.78%
08/08	British Sugar plc, Broom's Barn Research Centre	5 Harvest, handling, storage GAP - analysis of discrepancies between yield potential and delivered yield	51,387	3.10%
		Group 5 total for 2009/10	£51,387	3.10%
06/15	British Sugar plc, Broom's Barn Research Centre	6 Technology transfer A fully co-ordinated programme of information and technology transfer for the Uk sugar beet industry	538,147	32.48%
		Group 6 total for 2009/10	£538,147	32.48%
		Grand Total R&D and Technology Transfer	£1,656,711	100.00%
